Brian L. Verrilli

(Signature of person mailing paper or fee)

Dear Examiner:

The above referenced Non-provisional Utility Patent Application filed on April 06, 2001 is the parent application to US 7,231,716 B2 issued June 19, 2007. The applicant received the typed copy June 21, 2007. Typed on page 1, line 62 is, "Division of application No. 09/828,621, filed on Apr. 6, 2001, now abandoned." The applicant checked PAIR and found under the Bibliographic Data section is typed, "Withdrawn, Abandonment, awaiting examiner action." The last transaction the applicant had with the Office in regard to this application was a Petition to Revive the Application it was entered 12-19-2005 and granted 03-08-2006. Therefore, the application should

Application No. 09/828,621

Filing Date: April 06, 2001

Applicant: Brian L. Verrilli

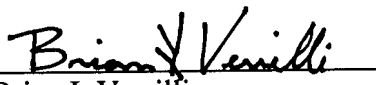

For: NOZZLE FOR PRECISION LIQUID DISPENSING AND METHOD OF MAKING

still be under prosecution. The applicant has not had an office action since. He would like to know why there is a discrepancy; the Transaction History section should reflect all the transactions while the application is under prosecution. The Transaction History section and Bibliographic Data section from PAIR are enclosed.

The application should be in condition for full allowance, with the exception of changing the title of the application to, "NOZZLE FOR PRECISION LIQUID DISPENSING" an action the applicant respectfully solicits without the need for additional processing or further delay.

Dated: June 30, 2007

Very Respectfully Submitted,

Brian L. Verrilli
